TOTAL TIME
5 MINS

SERVES 1 PERSON

EASY

Ingredients

50ml Sikkim Greenery
Schweppes 1783 Light Tonic Water
1 granny smith apple
8 fresh mint leaves

Method

Start by rubbing very quickly the rim of the glass with some apple peel. The oils in the peel will flavour the glass.

It's crucial to get your glass as cold as possible by initially stirring a few ice cubes around the glass to chill it. Drain out any excess water.

Fill the glass with plenty of cold ice.

Add the Sikkim Greenery gin, then the tonic pouring it very slowly over a bar spoon to avoid losing all the carbonation.

Finally, stir the drink very gently before adding a long apple peel and some freshly picked mint leaves.
